1. Introduction

1.1 General

All road agencies across Australia are working towards greater consistency between States/Territories in how road networks are managed. In order to achieve this, the Austroads Guide to Traffic Management (AGTM) and Australian Standards relating to traffic management have been adopted to assist in providing that level of consistency and harmonisation across all jurisdictions. This agreement means that these Austroads Guides and the Australian Standards are the primary technical references.

Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009) is a nationally agreed guideline document and has been adopted by all jurisdictions, including VicRoads.

All jurisdictions will be developing their own supplement to clearly identify where its practices currently differ and to provide additional guidance to that contained within Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009). This document is the VicRoads supplement and shall be read in conjunction with Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009).

1.2 How to Use this Supplement

There are two key parts to this document:

- **Classification of Supplement Information:** this table classifies supplement information as a Departure, Additional Information or both. This information assists with identifying its hierarchy in relation to the Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009).
- **Details of Supplement Information:** this section provides the details of the supplement information.
 - **Departures:** where VicRoads practices differ from the guidance in the Austroads Guide to Traffic Management (AGTM). Where this occurs, these differences or 'Departures' will be highlighted in a box. The information inside the box takes precedence over the Austroads Guide to Traffic Management section. The Austroads Guide to Traffic Management, Part 12, section is not applicable in these instances.
 - **Additional Information:** all information not identified as a departure provides further guidance to the Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments and is read and applied in conjunction with the Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments, Section.

Where a section does not appear in the body of this supplement, the Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009) requirements are followed.

2. Classification of Supplement Information

The classification of each clause as a Departure, Additional Information or both is shown in the table below.

Section	Classification
Nil	

The Austroads Guide to Traffic Management, Part 12: Traffic Impacts of Developments (2009) requirements are followed.

3. Details of Supplement Information

There is no supplementary information to the Austroads Guide to Traffic Management (AGTM), Part 12: Traffic Impacts of Developments (2009). All guidance on this topic is covered in the AGTM, Part 12.
